Technology Driving Better Benefits

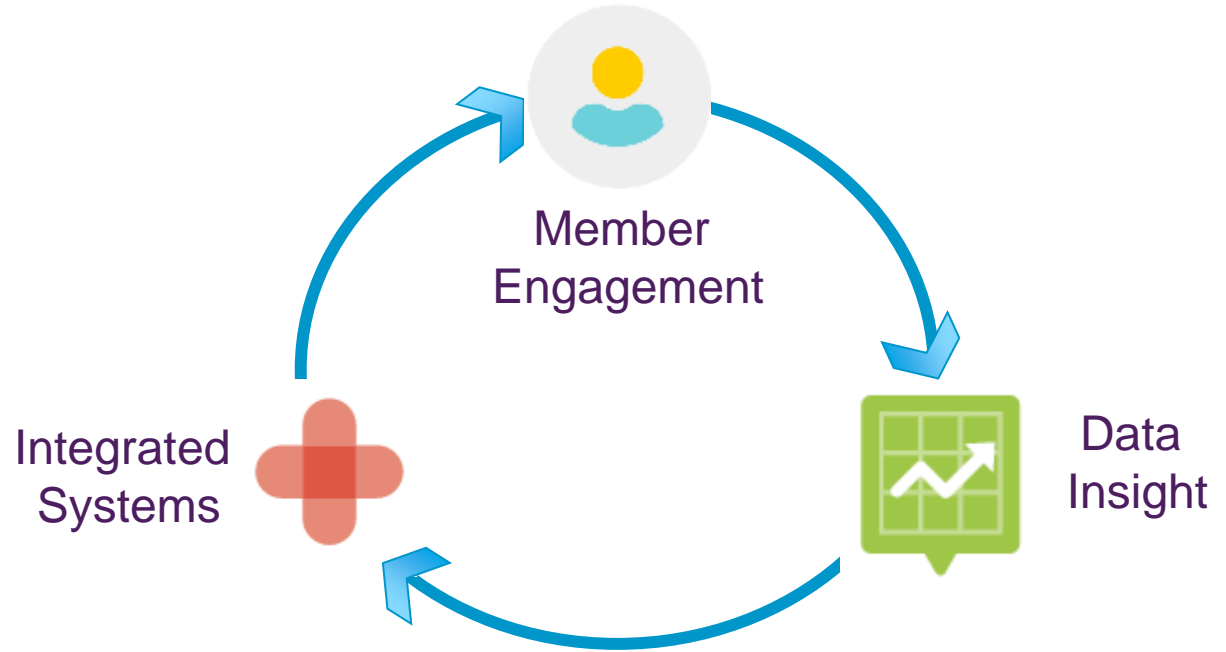

Kristin Baker Spohn

Technology +
Healthcare =

Why is
technology
important?

Technology
virtuous cycle

Why is
technology
important?

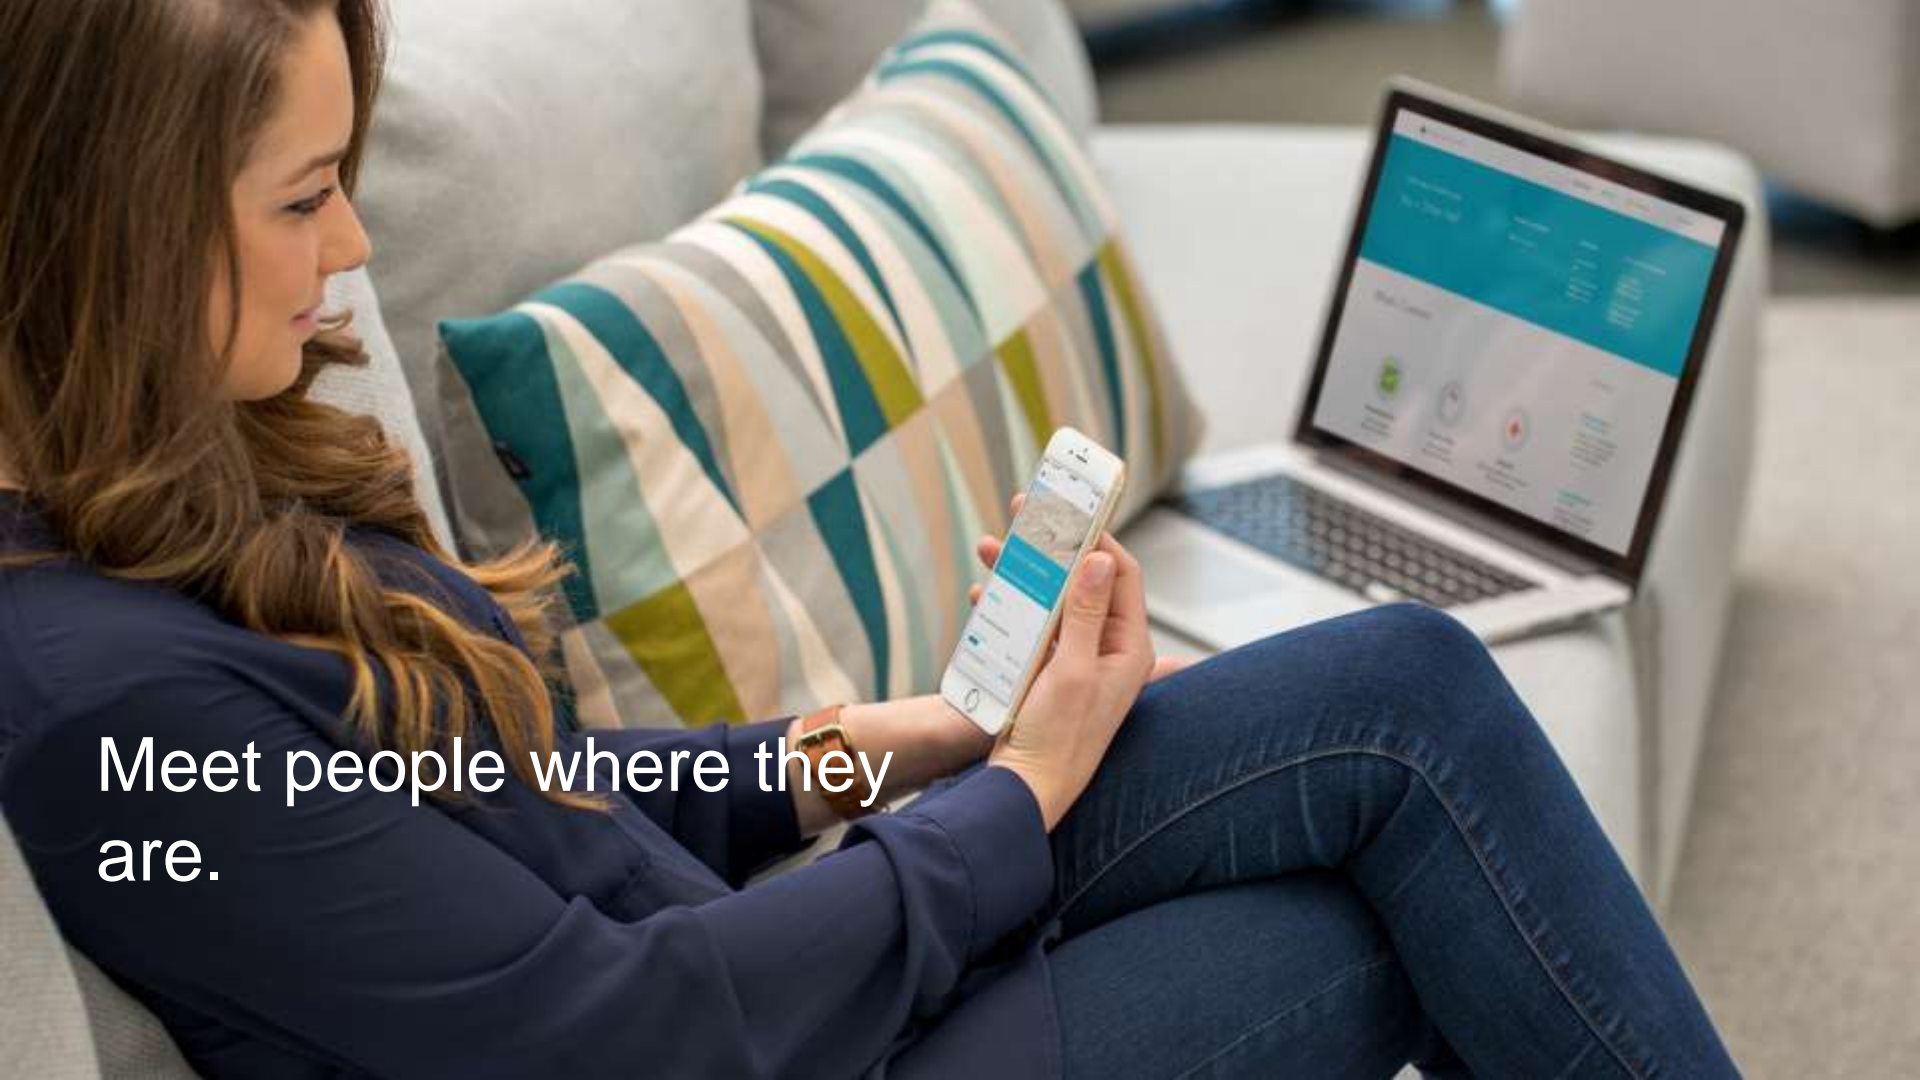

Members

Systems

Data

Expect more.

Meet people where they
are.

Preventive Care

Free in-network
20% out-of-network

Doctor Visits

\$20 in-network
20% out-of-network

Hospital

10% in-network
20% out-of-network

What does this look like?

ER

\$150 in & out-of-network

Urgent Care

\$40 in-network
20% out-of-network

Outpatient Surgery

\$125 in-network
20% out-of-network

What does this look like?

The image shows a grid of service icons. A central pop-up window titled 'Outpatient Surgery' is open, displaying cost information and a description of a surgical procedure. The pop-up has a blue header and a white body. The background grid includes icons for Preventive Care, Hospital, ER, and Outpatient Surgery, each with associated cost information.

Service	In-Network Cost	Out-of-Network Cost
Preventive Care	Free	20%
Hospital	10%	0%
ER	\$150	\$150
Outpatient Surgery	\$125	0%

Outpatient Surgery

\$125
IN-NETWORK

20%
OUT-OF-NETWORK

You finally get your knee fixed from that high school football injury. The surgical center bill comes to \$1,000.

If the surgical center is in network, you'll cover \$125 and your plan will cover \$875.

If the surgical center is out-of-network and you've met your deductible, you'll cover \$300 and your plan will pay the rest.

Innovative, yet
practical

Health

Productivity

Savings

How do you make
data powerful?

Make it
relevant.

Personal

Timely

Actionable

Make it speak.

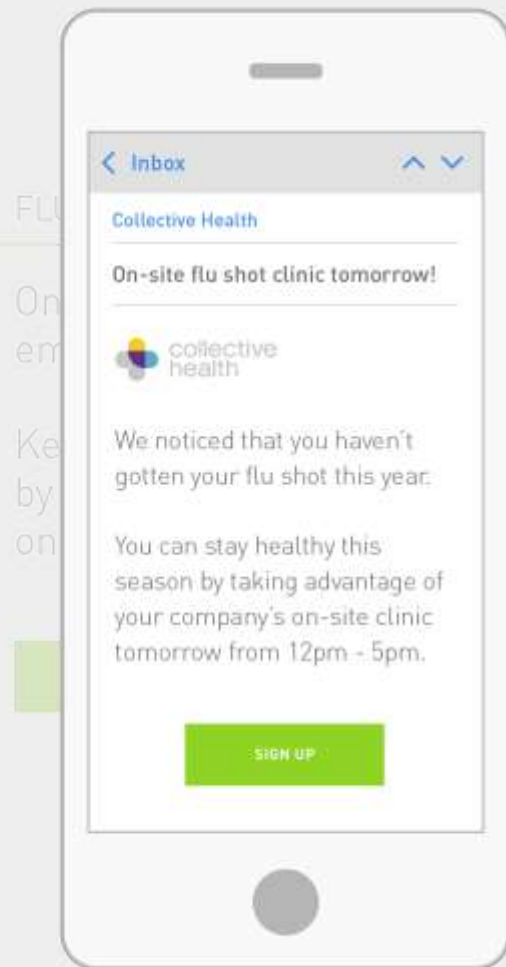

FLU VACCINATION

Only 17% of your employees got a flu shot.

Keep everyone healthy by scheduling an onsite clinic

[SCHEDULE NOW](#)

Make it speak.

Make it
integrated.

Bringing it all
together
