

Commercial Surety

Optimally structured surety bond programs, adding value to your organization.

Overview

Using bonds can free up alternative sources of cash, dramatically reduce your costs, and protect you from unwarranted draws on other financial guarantee products. Whatever your specific needs, ABD's expert team will provide surety solutions to help you reach your goals.

ABD Advantage

Cost-Effective Plan

When it comes to surety bonds, you don't have to compromise on quality due to cost. Our experts will secure the best possible pricing in the marketplace, from quality surety carriers. We'll also reduce your bond costs by performing an analysis of your current program to determine what potential rate structure lowers your costs the most.

Custom Strategy

Every company is different – and so is each surety obligation. At ABD, our professionals are experienced in structuring commercial surety bonds that cover a wide variety of contractual and compliance obligations. We have access to all the major commercial surety markets, and can offer bond form options to suit almost every need.

Worry-Free Compliance

A traditional Letter of Credit could be holding you back. Surety bonds can be used in their place to free up cash and provide collateral when it's required. We can replace outstanding Letters of Credit with Surety bonds to increase your bank borrowing capacity.

Added Efficiencies

Many Letters of Credit are unconditional. They can be drawn down at any time when the beneficiary decides to do so. With Surety bonds, you can protect yourself against unjustified or frivolous drawdowns, so they can't be used as leverage against you.
